YATE'S CHALLENGE MEETS WITH SOME FAYOR IN ENGLAND.

Conditions Though in the International Collegiate Track Athletic Contests Have Been Submitted and the Englishmen Are Willing to Accept October 5 as the Date of

London, July 9 .- The Cambridge University Athletic club has accepted Yale's challenge. Negotiations for the proposed meeting will be begun at once. The following conditions have been

submitted by Cambridge: Cambridge prefers September 28 as the date for the proposed international collegiate contest in track athletics, but if that date is impossible Cambridge is willing to accept October 5, the date specified in Yale's counter challenge, although the latter date is most incon-

venient. As Yale insists on excluding the three mile run Cambridge proposes that there be eleven events, namely, the 100 yards dash, the 300 yards dash, one-quarter one half mile and mile runs, a hurdle race on the grass, and a hurdle race on the track, the hurdles to be three and one-half feet in height; also the long jump, high jump, hammer throwing and weight putting, the conditions to be precisely as those formulated by Oxford and Yale in the events on this side held in 1894.

Oxford and Cambridge have sent a reply to Pennsylvania declining the challenge to meet a picked American college team.

SENTENCES ARE MODIFIED. Debs Gets Six Months in Jall Instead One Year.

Chicago, July 9 .- Judge Woods this morning modified the sentence of E. V. Debs from one year in jail to six months and of the other directors of the American Railway union from six to three months. The sentences are now as the court originally imposed them. The prisoners were sentenced to the terms fixed to-day in two cases-one brought by the United States and the other by the Santa Fe road but the judge made the sentence concurent to begin and end at the same time.

Later on the sentences in each case were made cumulative, one to begin when the other ended for technical reasons, in order that the cases might be brought before the supreme court. As the court only wished to punish the men for the length of time prescribed he has all along intended to make the sentences as originally imposed.

"It is not my intention." he said this morning, "to have it said that I punished these men for acts committed during the strike. My intention was to punish them for contempt, and for that thought six months for Debs and three months for each of the others an ample sentence."

It is not known whether or not they have accepted the offer.

The men had a dispute over a woman and both left the saloon to go down into the railroad yards to settle the trouble. Outside the saloon Giovianello pulled a knife and plunged it in the bartender's back. Cabobainco fell to the sidewalk unconscious. Medical Examtner Axtelle was called and took the injured man's statement. He is now in a room in the rear of the sulcon too weak to be removed. His assallant has been

CORDAGE COMPANY AFFAIRS. Plan Given Out by Bondholders' Protective

Committee. New York, July 9.-The bondholders' protective committee of the United States Cordage company, which was onds, held a meeting to-day. The nembers have vigorously opposed the Sturgis-Waterbury plan of reorganization, and at to-day's meeting they gave out the following plan which they submit in opposition:

To Bondholders of the United States Cordage Company: The bondholders' committee, having promised to report their recommenda-tions to their bondholders after further nvestigation of the company's affairs, and having (with the exception of Mr Dumont Clark, who has withdrawn), agreed upon the conclusions following, now advise the bondholders that in their

of other interests. Mr. Keegan was given leave by H. W. Yates, president of the Ne- to withdraw his application, as he had een found unsatisfactory by the board. Superintendent Smith reported that

Professor A. W. Phillips and Treasurer W. W. Farnam of Yale college had been The following subjects of interest to down to the office and had praised Officers Wiser and Donnelly highly for the efficient work they had done on the campus the past year and requested that they might have the same men another year. They stated that the men had kept their temper under all kinds of treatment, the students but decent names. The department receives \$3 per day for each man from the college. The men receive \$2.75 per day apiece. Superintendent Smith requested that he be allowed to use the surplus for sundries. This permission was granted.

Commissioner Moran said that he un derstood there had been some trouble about the supernumeraries, so that it was thought best some of them should be dropped. The efficiency of the su-pernumeraries was referred to the committee on efficiency with instructions to examine the list and report who should and who should not be dropped. Supernumerary Martin McAllen made application for remuneration for his clothes, which were torn in making an arrest on the night of July 3. The matter was referred to the committee

on finance. The matter of the appointment of detectives was laid on the table.

The matter of the transfer of Office Lawlor from station 4 to station 2 and Officer Marshall from station 2 to station came up for consideration. changes were made for discipline and ommissioner Prince said that he had nderstood one of the men to have said that he would get back in spite of the commissioners. SELECTMEN'S SPIRITED SESSION. Selectman Bretzfelder was again very auch in evidence at the meeting of th selectmen last evening and took occaion to criticise at considerable length the action of Town Agent Baldwin in paying bills contracted in the name of he town before they had been before the finance committee of the board. particularly specified a bill of \$3.50 for Lake Whitney cigars, one of \$21 for extra services rendered by Arthur M. Beebe, the janitor of the town portion of the city hall, and still another bill, amounting, he said, to nearly \$1,000, paid o Town Counsel Goodhart.

In reply Town Agent Baldwin said that the cigars in question were used by the members of the board upon a cent visit to Springside farm and that Selectman Bretzfelder apparently enjoyed the cigars as much as any one else. Continuing, he said it seemed to him out of taste for the selectman to talk about the cigars which he had so thoroughly enjoyed. In reference to the bill of \$21 he explained that it was for extra services rendered necessary in order to put the ball in decent con dition, as it was in a filthy condition when the new janitors took hold, and he did not think it was right to tax this extra expense. It was also explained that the bill was only about \$6, while under former democratic administrations the cost of the same work had een \$50. When Selectman Bretzfelder learned of this he evidently did not de sire any further explanations and the

entire matter was dropped. Three residents of Westville appeared efore the board and claimed that the New Haven Street Railway company had not carried out the provisions of the Edgewood avenue branch charter in not running its cars to the entire distance agreed upon through Westville. They also claimed that passengeres were compelled to walk a quarter of a mile. The residents were in favor of making the New Haven Street Railway ompany take up its tracks and allow the Fair Haven and Westville company o cover the ground with their tracks In executive session it was voted to tale the matter for a week and secure the town counsel's opinion on the power

of the board in the matter. The articles of agreement between the ompany and the town of New Haven vere read and the board voted to acway and deferred action on the agree-

THEIR CARE FOR THE WOUNDED IN A FRIGHTFUL ACCIDENT.

One Excursion Train Crashes Into Another and Thirteen Persons Were Killed and Several Injured-The Women Who Escaped Tore Their Underclothing Into Pieces to Make Bandages for the Wound-Craigs Road, Que., July 9.-In the

early hours of this morning there occurred an accident on the Grand Trunk road at the station here that has seldom been excelled in horror by any similar event in Canadian railway annals. A special excursion passenger train, rushing along in the darkness of the

early morning, crashed into another train of the same kind preceding it and killed thirteen and injured scores of

The trains that came in collision were special excursion trains filled with pilgrims en route from Sherbrooke, Richthe year by electing C. M. Ingersoll mond and Windsor Mills to Levis, where president and C. A. Ingersoll clerk. It they were to cross over to Quebec and mond and Windsor Mills to Levis, where proceed to the shrine at St. Anne de the board in August. Messrs. Martin Beaupre and were following one another with an interval of twenty mintee to see if some arrangements cannot utes between them. The forward train was making good time, having left Richmond at 10 o'clock last night. On the rear of this train was a Pullman in which were the priests and others in charge of the party, and it was in this car that most of the loss of life occurred.

The first train reached this station, which is fourteen miles west of Levis, about 3 o'clock, and stopped at the tank to take water. Due precautions were taken and the semaphore thrown to danger against the following train. Only the trainmen were out and about attending to their duties. The Pullman in the rear was wrapped in silence and the sleepers were unaware of the terrible fate that was rushing upon them.

Suddenly there was a great crash-the second train coming at full speed had dashed into the rear Pullman of the first section. So great was the impetus of the colliding train that the engine embedded itself in the palace car, and the latter plunged forward and partially telescoped the first-class car immedi

ately in front. Every berth in the Pullman was wrecked and some of the occupants who were killed never knew what happened to them. They died sleeping. Others awoke to their horrible surroundings and position, maimed, bleeding and bruised, conscions of little else but the agony that racked them. It was an awful scene. The cries of the wounded and the moans of the dying and the outpouring of passengers from the cars that were not hadly damaged, and the hurrying forms of the uninjured trainnen with their flickering lanterns, all

ombined to make a distressing sight. The work of rescue was begun as soon as possible. When the blinding clouds steam had subsided the trainmen, priests and others got together and the dead and wounded were taken from the rulns of the engine, Pullman and first class car and removed to temporary quartters, where the women of dages for gaping wounds and tried, in the absence of enough medical aid to go round to staunch the flow of blood and properly cleanse the wounds.

Word was at once sent to Montreal and an order from there was sent to Levis to send out a force of doctors from Onebec to attend to the wonder and a force of men to clear the track. The special train reached here at an early hour and all of the wounded that could be moved were placed aboard and sent east to Levis, where they could be cared for in hospitals. It is hard to say where the blame for the accident rests. It has been suggested that Engineer McLeod might have fallen asleep and thus have missed seeing the warning semaphore and was unconscious of his whereabouts. Indeed this would seem to be the only theory that can be advanced, but a strict investigation will be held at once to determine where the responsibility rests.

Levis, Ore., July 9.—The scene in the Hotel Dieu after the arrival of the wounded from the Craig's road wreck

was something which an eye-witness car never forget. The unfortunate pil grims all occupid beds in the different wards and were attended to by nuns and ladies. The cries of some of them were fearful to hear

The ceremony of laying the corner stone of the new Christ church edifice on the site of the old church recently demolished at the junction of Elm street and Whaley avenue, will take place at 4 o'clock this afternoon. The ceremony will then take place. A very pretty program of the office, or prescribed form of the ceremony for the laying of the foundation stone has been issued. All the people who may be present are requested to join in the service. The opening hymn

EXCITEMENT IN L. A. W. REGARD. ING A COMELY COLORED GIRL.

Miss Kittle Bird Who Won First Prize in the Malden Cycle Parade Was Not Given Her Badge and She Quietly Went Her Way-The Action of the Committee is Strongly Condemned.

Asbury Park, July 9.-The second day of the L. A. W. meet has been most enjoyable. The weather could not have been more favorable. Hundreds of cyclers from every section of the union and Canada and even Europe arrived with wheels and gay badges on every train, bands played welcoming "towsteps," and marches and the register of visitors at the club house of the Asbury Park wheelmen fairly bulged out with its host of entries while the supply of credential buttons waxed lower and

lower in the committee's desks. Among to-day's arrivals were representatives of the Essex Bicycle club of Newark, the second oldest league club; the Hudson County wheelmen and Clio Wheelmen of Jersey City, the Boston Press Cycle club, Maiden Mass., Cycle club, Quill club Wheelmen of America, Chicago Cycle club, Riverside Wheelmen, New York wheelmen, Gramercy, Wheelmen and Greenwich wheelmen

To-day the only events have been the run to Long Branch, through Interlaken, Deal Beach and Elberon, by the famous surf road, the great parade and the discussion of Miss Kittle Knox's

Miss Knox is a comely colored girl from Boston, who recently won the first prize in the Malden cycle parade for wearing the most tasteful and artistic woman's wheeling garb and who has been a member of the league for six years, joining long before the uproar about the race as a result of which the membership was limited to white persons alone. When Miss Knox, whose appearance and dress had been objects of admiration all day long, walked into the committee room at the local club house and presented her league card for a credential badge the gentleman in charge refused to recognize the card and the young woman withdrew very quietly and went her way. Then the discussion commenced. Nearly nine out of every ten members expressed the heartiest sympathy for Miss Knox and condemnation will probably be held Saturday evening, for the action of the committee. First Vice President George A. Perkins of Boston, the highest official present, said to-day that he considered the refusal entirely unauthorized and that were he consulted he should insist upon Miss

Knox receiving her badge at once.

AN ATTEMPTED BURGLARY. Tried to Break Into Julius Laske's Cigar

Store on Church Street. An attempt was made to burglarize the cigar store of Julius Laske at 18 Church street shortly before 11 o'clock last evening. There is a dark passage way between the Monopole hotel and the cigar store, and a window of the cigar store opens into this passage way. The burglar stood out in front of the store until Officer John Gilligan, who was on the beat, had passed down Church street. 'The burglar then stepped back to the window and cut out one of the panes of glass with a sharp instrument. He found the window securely boarded up from within and so was not able to effect an entrance into the store. A colored man, who lives over the cigar store, notified the pe but the fellow escaped over the back fence.

FOR NEEDED OUTINGS.

Fresh Air Excursions-Funds Needed.31 The fresh air work of the City Missionary association is now in progress, and the help of those interested is requested in order to its successful completion. Compared with the funds needed to meet the necessary expense but little money has yet been received, and it is therefore difficult to make plans for the season. More than 1,600 persons were given the benefit of this fund last summer, and more rather than less should be done this year. Three excursions have been arranged to Pawson park and Lake Saltonstall, one for this week, Friday, July 12; another for next Wednesday, July 17, and still another for the week following, Tuesday, July 23. For several years an all day picnic at Savin Rock has been arranged for the children at the County Home, with carriage rides to East Rock park or to the shore for the old people at the church homes, and also at the almshouse. There are some of the feeble ones who need a week or two of country board, while others who cannot so well leave their homes over night should be sent a number of times on steamer trips or by the electric cars to the shore. Subscriptions for the "Fresh Air Fund" may be sent to Rev. Mr. Mossman or Miss Hume or left at the First National bank, at Mix's drug store rector, wardens, vestrymen and build- (Church and Chapel), or at the City Mising committee, and a copy of the last sion hall (afternoon or evening), corner of Court and State streets.
